### **DETAILED ACTION**

1. Applicant's April 23, 2008 Amendment has been reviewed. Claims 1-8 and 39-61 are pending. Applicant cancelled claims 9-38.

### ***Claim Rejections - 35 USC § 103***

2. Claims 1-8 and 39-61 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ephrati et al., US 7,296,001.

Ephrati discloses a network based trading system and method where a product and services, e.g., cols. 1-3, and where a seller is notified of the particular product or service when the buying criteria, does not match the seller criteria and outputting a list of deals in real-time from amongst the plurality of deals. Ephrati does not explicitly disclose a service and distribution criteria.

The Official Notice previously taken from the July 17, 2007 Office Action that distribution criteria has been common knowledge in the electronic marketing art is deemed admitted by Applicant as this assertion was not traversed. To have provided such for Ephrati would have been obvious to one of ordinary skill in the art in view of Official Notice. To have provided common knowledge real-time notification for Ephrati would have been obvious to one of ordinary skill in the art.

Applicant's April 23, 2008 REMARKS have been reviewed, but are not convincing. Regarding when the negotiating occurs, Applicant's newly submitted claim 59 addresses this issue. However, the limitations of matching at least one deal of a

plurality of deals that meet at least on buyer defined price and non-price buying criteria has been common knowledge in the transaction art as has the features recited from newly added claims 59-61. To have implemented them with Ephrati would have been predictable and obvious for one of ordinary skill in the art per KSR v. Teleflex, 127 S. Ct. 1727 (2007). The fact that Applicant's claims allow for criteria to be selected prior to negotiating is noted. However, the claim language do not preclude Ephrati from performing in the this manner in light of known common knowledge. The claim terminology Applicant uses is, basically, attempting to use computer/web technology to encompass the art of buying selling that has been common place in the transaction art. This combination of old methodology with new technology is deemed obvious and predictable, see KSR.

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3687

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
